

art • storytelling • science

The logo consists of a large orange circle containing two white stylized figures. The figure on the left has a round head and a pointed body. The figure on the right has a round head, a long, flowing hair-like appendage, and a pointed body. They are positioned as if they are interacting or talking to each other.

climate kids

Climate Kids is a series of community level collaborative projects to support youth engagement on climate change through action based science activities, storytelling, and art. Each Climate Kids project brings together artists, scientists, and storytelling into a unified partnership to inspire and educate children.

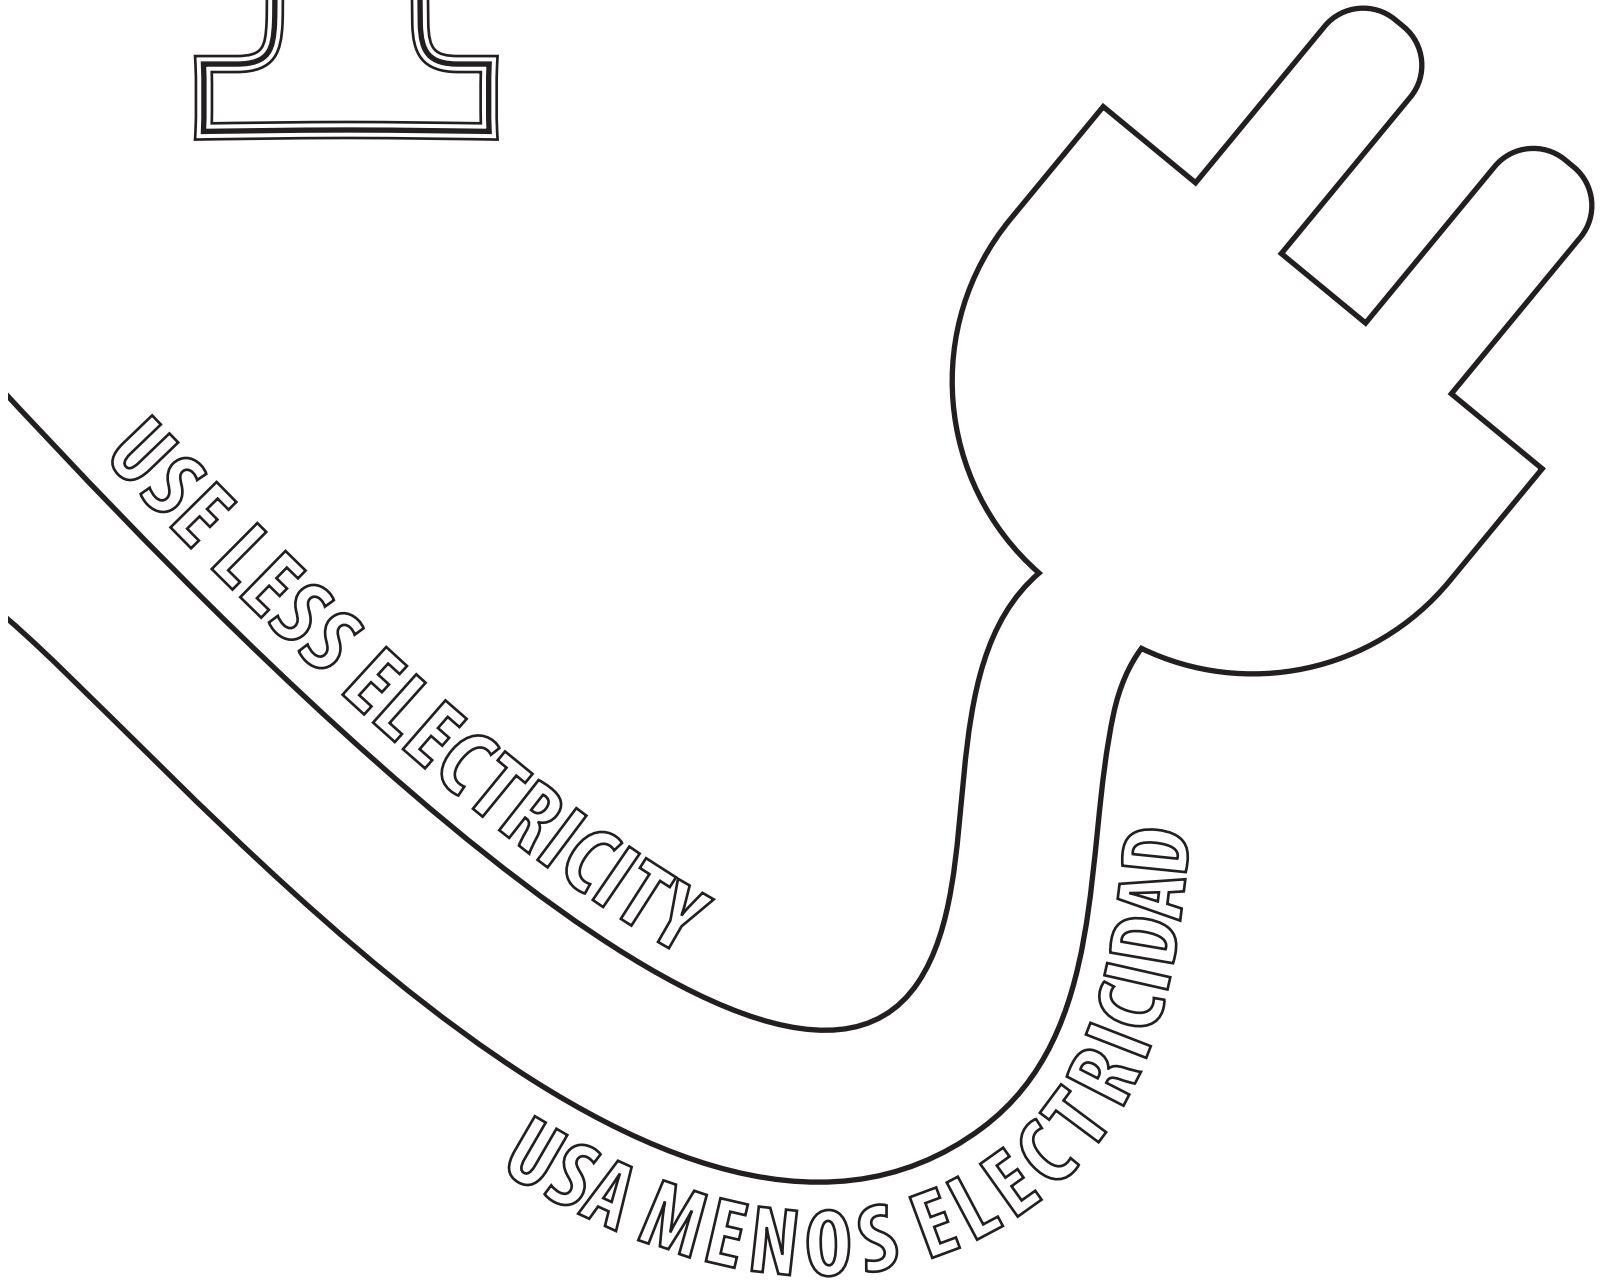

www.climatekids.org

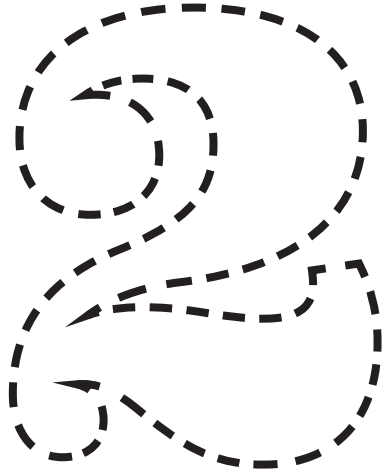

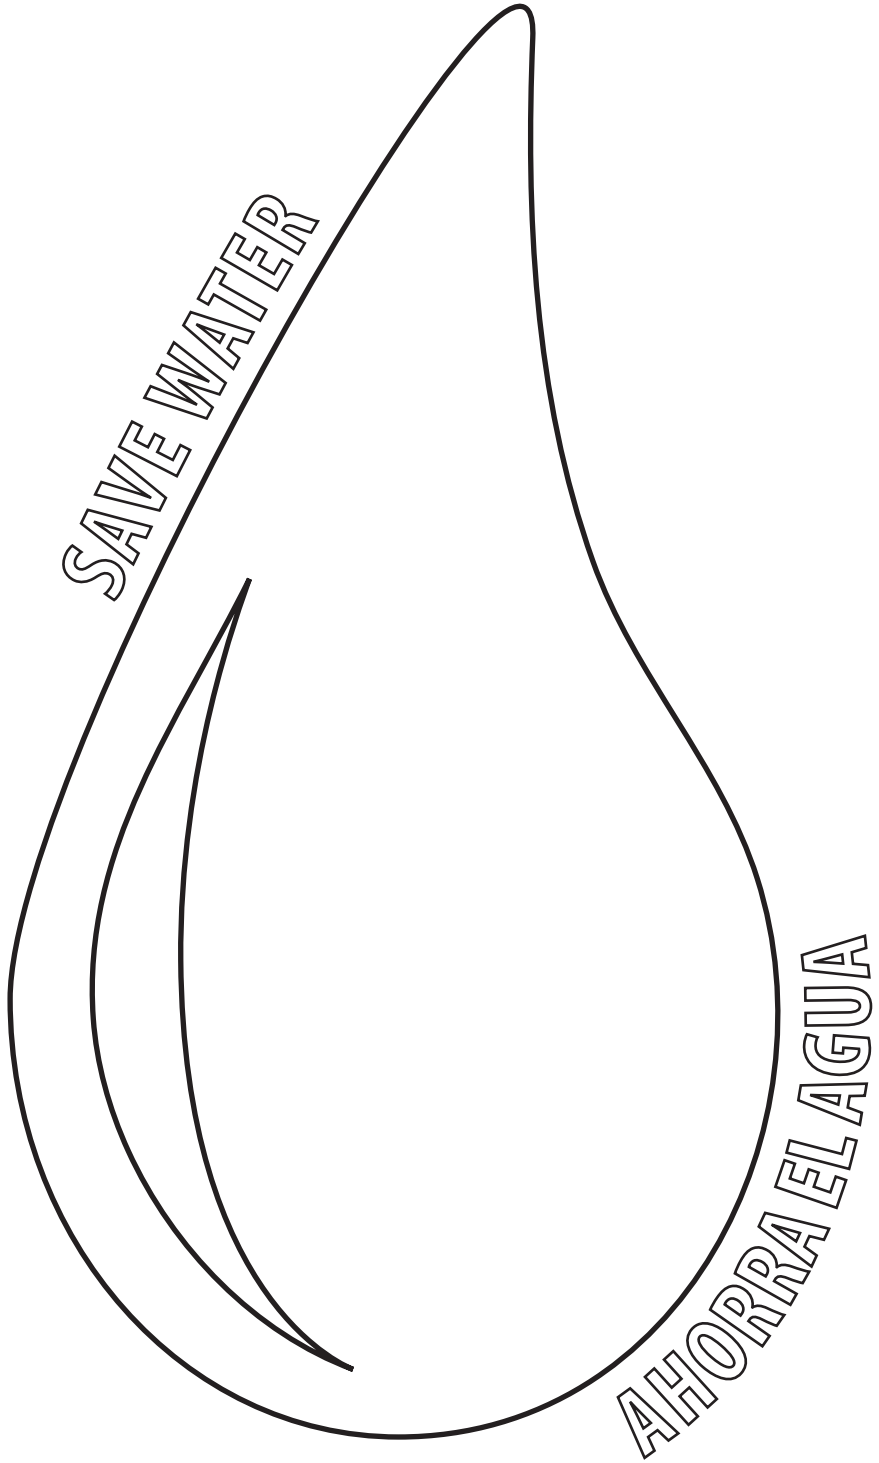

Climate Kids es una serie de proyectos a nivel comunitario que refuerza la participación de los jóvenes en el tema del cambio climático a través de la realización de actividades científicas, cuentacuentos, y arte. Cada proyecto de Climate Kids reúne artistas, científicos y cuentacuentos en una asociación unificada enfocada a inspirar y a educar a los niños.
